Overview

An experienced front-end developer based in Greater Boston. With over a decade of working with all types of companies - small to large and across industries - I bring extensive knowledge of best practices for the web. I develop with performance and accessibility in mind, as today's ever-changing world requires fast sites that any user can navigate. I'm a passionate, team-oriented, and hard working individual, who brings ideas from concept to reality.

Skills

HTML	Agile/scrum methods	Claude Code
CSS/Sass	Design systems	GitHub Copilot
JavaScript	WordPress	
React	Drupal	
Git	Adobe Photoshop
